« Je propose la création d'universités européennes qui seront un réseau d'universités de plusieurs pays d'Europe, mettant en place un parcours où chacun de leurs étudiants étudiera à l'étranger et suivra des cours dans deux langues au moins. Des universités européennes qui seront aussi des lieux d'innovation pédagogique, de recherche d'excellence. Nous devons nous fixer, d'ici à 2024, en construire au moins une vingtaine. Mais nous devons, dès la prochaine rentrée universitaire, structurer les premières, avec de véritables semestres européens et de véritables diplômes européens. »

Strengthening European Identity through Education and Culture

- boost the Erasmus+ programme in all categories of learners that it already covers (pupils, students, trainees, apprentices and teachers) with the aim of doubling the number of participants and reaching out to learners coming from disadvantaged backgrounds by 2025;
- work on a Council Recommendation on improving language learning in Europe, setting out a benchmark that, by 2025, all young Europeans finishing upper secondary education have a good knowledge of two languages, in addition to their mother tongue(s);
- work on a Council Recommendation on the mutual recognition of higher education and school leaving diplomas/study periods abroad. This could be accompanied by a new process, building on experiences from existing cooperation schemes to facilitate such recognition and take further the cross-border validation of training and lifelong learning certificates ("the Sorbonne process");

Strengthening European Identity through Education and Culture

- strengthen the financing capacity of the Creative and Cultural Sectors Guarantee Facility by 2020 in order to allow banks and other financial institutions from an enlarged number of countries significantly to increase financing of small and medium-sized companies in the cultural and creative sectors;
- work towards truly European universities that are enabled to network and cooperate seamlessly across borders and compete internationally, including the creation of a School of European and Transnational Governance (hosted by the European University Institute in Florence, Italy);
- strengthen the European dimension of Euronews.
