THE KNOWLEDGE SUMMIT

Education and human exchange constitute an essential dimension of the partnership between France and India. Collaborations in higher education, research and innovation lead the priorities of the third edition of Bonjour India, which culminates with the first Indo-French Knowledge Summit.

Coinciding with President Emmanuel Macron's first State visit to India, the Knowledge Summit brings together leaders from the academic, scientific and economic world in order to shape the Indo French roadmap for the next decade.

Graced by the presence of H.E. Mrs Frédérique Vidal, Minister of Higher Education, Research and Innovation and Shri Prakash Javadekar, Hon'ble Minister of Human Resource Development, this two-day meeting offers a common moment for a common goal: increase student mobility, enlarge Research & Development collaborations and link campuses to companies by focusing on employability.

The unveiling of a large number of agreements including a long awaited and major one showcase the new dynamic of the partnership between the two countries.

The French Embassy in India would like to thank the Department of Science and Technology, the Confederation of Indian Industry (CII) and Campus France for their support.
